Our History

Since 1974, International Trading Company (ITC) has built a reputation as a trusted global partner in the import, export, and manufacturing of high-quality textile products along with amenities and other comprehensive product solutions for hospitality, healthcare, commercial laundry, fitness, and car care industries. Founded as a premier wholesaler of linens, apparel, and other textile goods, ITC quickly earned recognition for its ability to deliver exceptional value through strategic sourcing, strong supplier relationships, and unmatched buying power.

By 1986, ITC sharpened its focus transitioning exclusively into the importing and distribution of premium towel and linen products. Through our vertically integrated manufacturing capabilities and longstanding partnerships with select global producers, ITC emerged as a leading supplier to the wholesale and institutional markets across North America.

Our flagship brand, the Golden Mills Collection, embodies our commitment to quality, consistency, and performance. Distributed through our trusted network of partners across the United States and Canada, these products continue to set the standard for excellence in the textile industry.

In 1992, ITC expanded its footprint with the opening of our domestic distribution headquarters in Fullerton, California, further enhancing our ability to deliver timely, dependable service to our customers.

Today, we remain dedicated to the same principles that have guided us for over five decades: integrity, innovation, and partnership as we continue to serve as a driving force in the textile and amenity distribution industry.

ITC Today

Today, International Trading Company (ITC) stands as a leading manufacturer and distributor of premium linen products, amenities, and key ancillary product offerings serving distributors across North America. For more than four decades, we've earned the trust of our partners by delivering exceptional quality, competitive pricing, and a relentless commitment to customer satisfaction.

Our product portfolio supports a diverse range of industries including: healthcare, hospitality, lodging, vacation rentals, beauty care, janitorial, sportswear, and home textile markets ensuring that every customer, from boutique operators to large-scale distributors, receives dependable quality and unmatched value.

At the core of our success is a global manufacturing and sourcing network that combines the strength of our own dedicated production facilities with strategic partnerships across Bangladesh, China, India, and Pakistan. This global integration enables ITC to maintain superior standards, consistency, and flexibility delivering both ready-stock and fully customized solutions to meet our customers' unique needs.

With domestic distribution centers strategically located in Gardena, California and Atlanta, Georgia, ITC provides timely, personalized service and seamless order fulfillment throughout the United States and Canada. Our custom branding and private-label programs further allow distributors to differentiate their offerings and expand their market share with confidence.

As ITC continues to evolve, our mission remains clear: to deliver the highest-quality product solutions with the most competitive pricing, supported by unmatched service and a partnership-driven approach that helps our customers grow and succeed.

The Future

As the marketplace continues to evolve, International Trading Company (ITC) remains steadfast in its mission to deliver exceptional quality at the most competitive value for our customers. Guided by more than four decades of proven performance, we are strategically focused on sustaining growth, innovation, and excellence across every area of our business.

Our vision for the future centers on strengthening our core linen and amenities operations, expanding product and service offerings, and enhancing our manufacturing and distribution capabilities to better serve the diverse needs of our global customers. By continually investing in technology, process efficiency, and product development, ITC is positioned to stay ahead of emerging trends and evolving market demands.

Most importantly, our future remains grounded in the same principle that has defined our success from the beginning, an unwavering commitment to our most valuable asset: our customers. Through partnership, innovation, and integrity, we look forward to continuing to set the standard for excellence in the textile industry for decades to come.
